- **Promote physical activity.** Children who have access to outdoor play spaces are more likely to be physically active. This can lead to a number of health benefits, including reduced obesity, improved cardiovascular health, and stronger bones and muscles.
- **Encourage social interaction.** Outdoor play spaces provide opportunities for children to interact with each other and develop social skills. These interactions can help children learn how to cooperate, share, and resolve conflicts.
- **Stimulate creativity and imagination.** Outdoor play spaces can be used to encourage children's creativity and imagination. These spaces can be used for dramatic play, storytelling, and other creative activities.
- **Provide opportunities for environmental learning.** Outdoor play spaces can be used to teach children about the natural world. These spaces can be used to plant gardens, observe wildlife, and learn about the importance of conservation.

Landscaping School Yards Gardens and Playgrounds is divided into four parts:
