The book is divided into four parts:

1. **Taxation History:** This section explores the history of taxation, from its origins in ancient civilizations to its modern manifestations.
2. **Taxation Theory:** This section examines the theoretical underpinnings of taxation, including theories of tax incidence, tax efficiency, and tax equity.

3. **Taxation Law:** This section provides an overview of the legal framework that governs taxation, including the different types of taxes, the rules for calculating tax liability, and the procedures for tax collection and enforcement.
4. **Taxation Administration:** This section examines the practical aspects of tax administration, including the organization and structure of tax agencies, the methods of tax collection and enforcement, and the role of technology in tax administration.

Taxation: History, Theory, Law, and Administration is an essential resource for students, scholars, policymakers, and practitioners who are interested in the field of taxation. This book provides a comprehensive and up-to-date overview of the subject, and it is an invaluable tool for understanding the complex world of taxation.
